

WEDNESDAY 9 FEBRUARY

Early start - very sick - kept quiet
over train because of cold (retrograde
cystitis) but me going in the car
further - after 6 or 7 more hours.
A fast stop & a large stop, then the heavy
buses supported by catches & track.
A long walk, visit one more market
to spot the older areas, & my first
kangaroo people - DOROBAND KERDUS &
DESIA KERDUS - roving
or nomadic, & it's the bimonthly market.
Only buys & sells from the northern part.
We now explore the market place -
many buses & trucks & some kiosks & carts.
Some rather low quality, others quite good.
Food & implements, local BURP' & some socks &
T-shirts, caps, hats, etc. Many things
mostly the better tourist gear & some local
LIME 'WHITE HORSE' Honeysuckle & not
S. M. L. L. L. - Touchless / A red flower
& in the men's hands - either T. S. C. or
nothing.

have had in the hands several days
I want us a ride at a stamping
one off every day and we may
have good reason to do so before
the 17th or 18th we went over to the Sene
and saw our neighbor (Mr. Wm. H. Green)
but as he had not come down yet nor had
he got over side & several attempts to surprise
him did not succeed. We had no account last
night. But B. P. Adams was here & I told
him I wished to come back home to my
neighbor. So he said — " Sir, you may do so
but I will make it known to the General that you will
be gone for a week & his wife (Mrs. Wm. H. Green) was not over well
— probably with Dr. W. Green or myself.
