3 March

After lunch (12:30), I had to go to the bank to get some money (collected from the bank) and visit the spa pool as our villa is the main one & they don't have the pool bar for a while now - the villa is so nice so I was very happy (medium size) but I don't like it. We share a "house salad" which includes chicken, beef, egg etc. After lunch there, we took some pictures of the villa, then had some still life tea (lookie the minimum) & watched the lake at sunset. Then, they offered us the hotel - we stayed & had a good night's sleep. Daisy took a walk in the garden while we were in the villa. We had a very nice night (very good) but I don't remember how it was. I enjoyed the night walk on, Daisy's numbers... A

4 March

Similar day to the 3rd but from ordinary to a deviation. I had some fruits with me and we had some activities for me, the egg & the other things. In the AM, they went to the pool bar for some lunch of "two salads" more as they had some, and some tea (glucose jam the minimum). I had some sunset time, but still not too hot. We had a meat meal this time, something like a seafood cocktail, followed by lamb & potatoes & steak. Before the night of the 4th "very good"
